

We have strengthened our partnerships in the independent school market to better serve our clients.

We offer two different methods of data integration with other software vendors: Web Services and the Data Exporter. Schools can use either or both of these methods, depending on their data needs and selected vendor(s).

Web Services is the preferred and most versatile method of data integration, enabling two way data transfer of information. Update frequency varies with the specific implementation and the vendor, but web services can provide almost seamless real-time data integration between the Senior Systems' database and your selected third-party vendor.

Web Services Overview

Data Exporter offers a more simplistic approach to integration. The Exporter offers a one-way data transfer. It can be used to make Senior Systems data available for third-party applications. And can be scheduled to run at predetermined intervals, keeping data up-to-date.

Web Services Partners

- Caretox
- Clock Tower Media
- finalsite
- CareFlow
- Haiku
- LearnSprout
- Magic Hour Communications
- Schoology
- Schoolyard
- WhippleHill
- Vivature

Data Exporter Partners

- Blackboard Connect 5
- Bright Arrow Technologies
- SchoolDoc
- DonorSearch
- GroupCast
- SchoolCast
- Canvas LMS
- Magnus Health
- Meritus Payment Solutions
- SNAP Health Center
- SchoolMessenger
- SchoolReach
