

AUTOPAY for My Backpack

AutoPay will allow your families to opt in to have their tuition and incidental fees automatically charged weekly, semi-monthly or monthly, with their preferred payment method and payment date. As always, your business office can still control how much flexibility they want to give families, while decreasing the number of late payments you receive each month.

SAVE TIME PROCESSING PAYMENTS

- Increased online payments leads to less paperwork and less manual reconciliation.
- Confidently plan your school's budget with reliable and expected tuition amounts.
- Allows the business office to reduce the time needed for mundane payment tasks, so they can focus on other important assignments.

DECREASE LATE PAYMENTS

- **AutoPay** decreases late payments by up to 30%, meaning your school gets more tuition and incidental funds on time.
- Control how much flexibility you want to give your parents.

ELEVATE PAYER EXPERIENCE

- With **AutoPay**, parents can have peace of mind knowing that they won't miss a tuition and/or incidental payment.
- Maintain control over their payments by setting limits on how much can be automatically charged, and on what date.
- Convenience of "set it and forget it." One less thing busy parents will have to remember.
- Parents will pay less than they would with a tuition management company!

HOW TO ACTIVATE AUTOPAY

We are excited to get **AutoPay** set up for you. There are a few brief steps to turn on this feature.

Contact an Account Executive today for assistance with activating **AutoPay** for your parents.
